# FANATICAL JAPANESE MOB HAGERTY

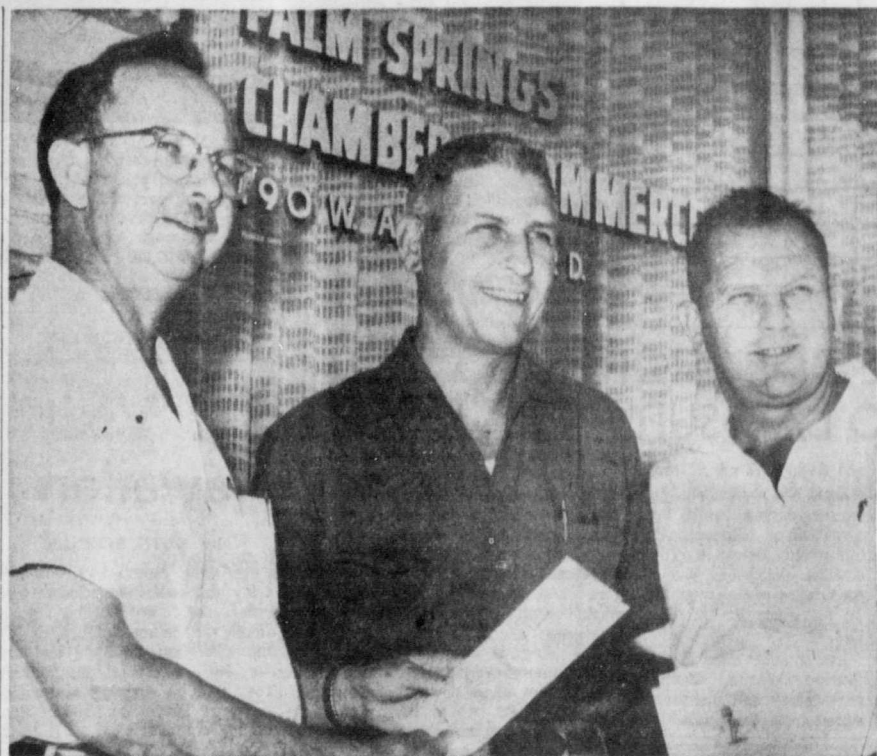

## Nixon, Rocky Nix Public Handshaking

Veeps Aides Report  
Handclasp Did  
Occur Privately

NEW YORK (AP) — Vice President Richard M. Nixon and Gov. Nelson A. Rockefeller met without shaking hands in public—Nixon's aides said the Vice President did clasp Rockefeller's hand prior to the public meeting—but the two buried their sudden political feud long enough to welcome Britain's Prince Philip to an America of "great unity."

Opening a British exhibition here, Nixon said he hoped "we won't have to visit a kitchen"—harking back to his famous debate with Soviet Premier Nikita Khrushchev last summer in a model kitchen at the similar U.S. exhibition in Moscow.

## Helicopter Lands, Saves Press Aide

U. S. Ambassador,  
Other Officials  
Mobbed by Leftists

By CHARLES R. SMITH  
TOKYO (AP) — Thousands of screaming fanatical leftists mobbed Presidential Secretary James C. Hagerty today in a violent protest against President Eisenhower's forthcoming visit, but Hagerty said the trip would be carried out as planned.

The mobs trapped Hagerty, U. S. Ambassador Douglas MacArthur II and White House Appointments Secretary Thomas E. Stephens in a limousine for 70 minutes until they were rescued by a marine helicopter. The mob stoned the car and helicopter, broke windows and slashed the car's tires but did not hurt the Americans.

## BOYS CLUB OFFERS RETARDED ROOM

The Palm Springs Unified School District board heard without action last night a report from J. M. McFadden, president of the Palm Springs Foundation for Mentally Retarded Children, on the authorization of the Boys Club board for use of a room in the club for a classroom for severely mentally retarded children, and a Foundation report and plea for a full class for the severely mentally retarded.

The Foundation report took obvious exception to staff estimates of the number of eligible children and listed nine to 11. Mrs. Lois Nowlin reiterated only six were considered eligible.

DR. BERNARD POLIAK, president of the board, emphasized that the board "certainly must rely on the professional staff," and commented that he questioned whether "Bogert and others quoted in the paper" knew children who were eligible for such a program.

Dr. Poliak said the board waits reaction from an inquiry to the county superintendent of schools on the possibility of establishing

a county operated severely mentally retarded program.

DR. DWIGHT TWIST, superintendent of the Palm Springs school district, told the board only the county superintendent's action was needed to establish such a program, in answer to a comment by McFadden that it is probably too late for the county to act for the coming year.

The state department of education's bulletin 28 states the county superintendent must get county board of education approval, as well as supervisory approval of a budget for such a program.

OTHER BOARD action included approving a contract bid for construction of the Section 17 school (Dream Homes) for \$491,078. The bid was slightly more than \$34,000 above architect John Porter Clark's revised construction cost estimate, but other planned revisions in the estimates bring the figure down to slightly more than \$11,000 above the total estimate.

Estimates on the school had been raised twice previously prior to the bid call.

Wexler and Harrison were commissioned architects for the arts and crafts, and graphic arts addition to Palm Springs High School, and Frey and Chambers working drawings for the home-making, shop, and locker - shower additions at Nellie N. Coffman Junior High School were approved.

## Happy Ending For B'Way Strike

NEW YORK (AP) — The curtains are going up again on Broadway.

Actors and producers late Thursday night approved a contract agreement reached earlier in the day by their bargaining representatives, thus ending an eight-day Broadway blackout — the first in 41 years.

## U.S. High Court Stays Execution Of Mrs. Duncan

WASHINGTON (AP) — Supreme Court Justice William O. Douglas today delayed until June 27 the execution of Mrs. Elizabeth Duncan and two men convicted in Ventura, Calif., last year of murdering Mrs. Duncan's daughter-in-law.

The men who confessed to kidnapping and strangling the victim, are Augustine Baldonado, 26, and Luis Moya, 20.

All three were scheduled to die in the San Quentin gas chamber next Friday. The delay will allow the Supreme Court to act on their appeals, which are already filed here.

The papers were taken to Justice William O. Douglas, who administers the 9th U. S. Circuit. There was no indication when Douglas might act.

## CROSBY SELECTED 'FIRST CITIZEN OF RECORD INDUSTRY'

HOLLYWOOD (AP) — Singer Bing Crosby — honorary mayor of Palm Desert — Thursday was honored as the "first citizen of the recording industry" because his records have sold two hundred million copies.

A platinum recording of his "White Christmas" recording was placed in a copper capsule with other mementos and buried in the sidewalk at Sunset and Vine. The ceremony was part of the dedication of filmland sidewalks with names of movie stars.

The capsule was marked to be opened in 2000 A. D.

IN A BLISTERING statement Thursday night, Rockefeller rejected the vice president's invitation to discuss their differences on TV. Rockefeller's declaration, the second in 48 hours, all but confirmed he will challenge Nixon for the GOP presidential nomination.

The two had a chance encounter just before the formal ceremony at the New York Coliseum. It was their first meeting since the storm broke.

PASSING IN an anteroom, Nixon walked over and said, "It's good to see you again, Nelson." Rockefeller replied, "It's good to see you."

The encounter also included the handshake that Nixon's crewmen reported later. No reporters were allowed in the anteroom area.

Rockefeller went on to the rostrum. He was applauding when Nixon and Philip entered. Nixon approached close to the governor and paused. Rockefeller went on clapping. Nixon tapped him on the shoulder—the only sign of public greeting.

APPARENTLY NO public snub was intended. Prince Philip was the honored guest and Rockefeller was busy applauding his entrance with the vice president.

There was no politicking in the two GOP leaders' speeches. Nixon, in fact, declared that "as Americans there is great unity among all of us regardless of party considerations."

## Nets Seek Debate For Nixon-Rocky

NEW YORK (AP) — The nation's three major radio and television networks have invited Vice President Richard M. Nixon and New York Gov. Nelson A. Rockefeller to debate their political differences on the air.

FORREST "BUD" LINE, center, new head of the Palm Springs Chamber of Commerce relations department, receives instructions on the use of the new "Welcome To Palm Springs" kit from Herb Samson, left, chairman of the membership committee, and chamber manager Jimmy Cooper. The kits are a part of a new program

instigated by the membership committee to acquaint newcomers to the Village with the many services performed by the Chamber of Commerce. They will be distributed in cooperation with the city to all people securing business licenses and to those opening new accounts in the financial institutions in the village.

## 'BUD' LINE NAMED TO CHAMBER POST

Forrest "Bud" Line, well known in Southern California sales associations, has been placed in charge of the membership relations department of the Palm Springs Chamber of Commerce, it was announced today by Herb Samson, chairman of the Chamber's membership committee, and Chamber Manager Jimmy Cooper.

Acting upon the recommendation of the new membership committee, the Chamber board of directors instructed Cooper to fill the vacancy in the membership relations department created by the resignation of Cub Parker several weeks ago.

AN INTENSIFIED search was conducted by Cooper to locate a replacement. Line was selected, after being interviewed by Cooper and the membership committee.

## DHS Gas Station Robbed of \$214

INDIO — Sheriff's deputies today sought a lead in the break-in burglary at a Standard Station at Palm Drive and Pierson Boulevard in Desert Hot Springs Thursday evening.

A patrolling deputy sheriff noticed the front door had been forced open, and in investigation found that \$214 in assorted bills and change had been stolen.

"in view of his outstanding experience in sales work."

Born in La Porte, Ind., where he attended school, Line has been residing in the West since 1939, when he joined the Rheem Gas Appliances organization as Pacific Northwest Sales manager with headquarters in Portland, Ore.

DURING THE war years 1941-45, Line served with the Air Force engaged in intelligence work, attaining the rank of captain and seeing overseas service in Italy.

He resumed his civilian career in 1945, with the Rheem Corporation in the capacity of sales manager for the Southern California area. His experience in sales, sales promotion and sales techniques qualifies him for his new position in chamber sales work, the Chamber committee said.

A frequent visitor to the Desert in the past, Line just prior to joining the chamber staff had been a member of the Plaza Motor Sales organization since the first of the year. He has a 15-year-old daughter, a son, 12, and plans to make the Village his permanent home. He is a member of the Pacific Coast Gas Association and the Elks Club.

## College Structure Plans Discussed

PALM DESERT — The Coachella Valley Junior College District board of trustees met here last night in a progress report session on construction plans, Dr. Roy G. McCall, president of the college, reported today.

The meeting was attended by John Branigan, representative of the state bureau of school planning, plus representatives of consultant engineering firms, and project architects.

## SPORTS BULLETINS

NEW YORK (AP) — Bally Ache was withdrawn from Saturday's running of the Belmont Stakes today when he suffered a slight injury in his final workout for the third of the triple crown classics.

WIMBLEDON, England (AP) — Ann Haydon, 21, unbeaten in Wightman Cup tennis singles play against the United States, gave Britain a 1-0 lead by rallying to defeat Karen Hantze, San Diego, in today's first match, 2-6, 11-9, 6-1.

## PD Citizenry Respond to Chamber Appeal

PALM DESERT — The first personal letter appeal to local residents and property owners here has netted an increase of 50 new home owner members of the Palm Desert Chamber of Commerce, Chamber manager Don McNeilly announced.

McNeilly said that 1,020 letters were sent out, to the town's estimated 5,000 residents. More than 60 different kinds of business are listed in the new Palm Desert directory, McNeilly reported.

He added continued business inquiries will probably result in firms during the remainder of the year.

And Palm Desert has joined the Golf Capital ranks, with a new sticker for mailings and display areas heralding the community as "The Vacation Golf Capital of the World."

## Indonesia Coup 'Wishful Thinking'

JAKARTA, Indonesia (AP) — President Sukarno today called reports of a military coup against his government "wishful thinking" by quarters hostile to his regime.

## Far From Quota

## Red Cross Plans Mop-Up Drive

An intensive mop-up campaign, seeking more than half the quota of the current year's fund drive by the Palm Springs branch of the Riverside County Chapter of the American Red Cross, will be conducted among businesses of Palm Springs, Cathedral City and Desert Hot Springs, general chairman Earl Hough announced.

Mrs. Juin Vail, administrative assistant for the branch, told The Desert Sun today that less than half of the quota has now been reached, or approximately \$12,000 of a \$25,849 goal.

SHE EXPLAINED that the residential goals have been fairly well covered, and the Rancho Mirage business house goals have been met.

"The larger firms in Palm Springs and the other communities have made their contribu-

tions — but we are far short of the goal, which is approximately \$4,000 higher this year than last," Mrs. Vail reported.

THE RED CROSS raised its goals during the operation of the United Fund here for two years, but does not belong to the current Community Chest organization which replaced the United Fund as the most centralized contributions channel for the community. The quota here was set on the national criteria or population, buying power, and past campaign experience, Hough reported.

Hough wrote prospective donors that "we look forward to your continued generous support of this great charitable organization that operates on a wider front than any other to prevent or to lighten human suffering."

## Asks 'Understanding'

## Israel Answers Argentine Blast

JERUSALEM, Israel (AP) — Israeli Premier David Ben-Gurion has appealed directly to Argentine President Arturo Frondizi in an effort to avert a diplomatic split over the Adolf Eichmann case, informed sources said today.

The sources said Ben-Gurion sent Frondizi a cable asking for understanding of Israel's position on the man blamed for the murder of six million Jews during the Hitler regime.

ARGENTINA REJECTED an earlier Israeli explanation that Israeli "volunteers" contacted Eichmann who was living under

an assumed name in Buenos Aires, and that the former Nazi S.S. colonel voluntarily accompanied them to Israel.

It demanded his return by the end of this week. It said it would take the case to the United Nations if Israel failed to comply.

IN BUENOS AIRES, a government source said no further action will be taken until Foreign Minister Diogenes Taboada receives a photostatic copy of a letter Eichmann allegedly wrote agreeing to go to Israel voluntarily.

Israel promised to give him the copy.

## Indexes Off; But Consumer Buying Up

Inventory Cuts Continue Despite Good Sales Picture

By PAUL H. MACGREGOR  
E. F. Hutton and Co.

It is unusual to find consumer buying holding at an all time high plateau with indications that the trend upward and continues for the foreseeable future, and at the same time have production indexes in a declining phase. This paradox is created by business living on current inventory to a large extent.

With a bright sales outlook, the question as to why business generally is reducing inventory is pertinent. There are several reasons why this is so, and they may be enumerated as follows:

1. GOODS ARE plentiful and are readily available for quick shipment; thus, light inventories are feasible.
2. There is very little or no upward pressure on prices; in fact, price weakness has appeared in a number of industries which are afflicted with excess capacity.
3. The prevailing high interest rates on borrowed money is an incentive to keep inventories at minimum levels.

JUST WHEN inventories will reach minimum levels is difficult to say. Even if there were no material time lag on reported inventories, no one knows just what would be "minimum levels." Inventory reduction has been in process since the middle of the first quarter, so one can assume the bottom of the barrel could be near.

July is vacation month for numerous industries. Some companies close down their plant entirely for two or three weeks, so I would guess that August will see a reversal of the current trend.

AN INVESTOR should keep in mind that the market tends to move ahead of events, and one should not wait an actual reversal of the production trend to make contemplated stock purchases.

Nor for consideration of the technical aspects of the stock market. If we use the Dow Jones Averages as a norm, last week was not very encouraging. The averages did not reflect true conditions very well. As an illustration: The number of stocks registering advances and declines was fairly in balance, with a large share of declines coming from the rails and utilities. Also, the number of new highs outnumbered the new lows (286 versus 216), while the Dow Industrials are only about 251 points away from their low and about 60 points away from their year's high.

ANOTHER FAVORABLE technical factor is the announcement by the Federal Reserve Board that it was giving study to the possible reduction of margin requirements in the near future. The prevailing opinion appears to be that a reduction in margin requirements would be bullish. In my opinion, this pending change would be a buffer against large scale liquidation.

So, giving weight to all the factors I have mentioned, it appears the market is in a buying zone. It may be possible to buy slightly lower than current prices but not materially so, in my opinion. Every indication seems to point toward a most promising final four months of the year.

## Deputy in Trouble

MOBILE, Ala. (UPI) — Randall Parker was fine only \$1 instead of the usual \$25 when he explained he was on his way to jail when police stopped him for speeding.

It seems Parker was pressed into service to drive a few of the suspects to the station house after police broke up a card game and didn't have enough room in their automobiles to accommodate all the players.

Recent guests visiting at the home of Mrs. Faye Kennebeck were Mrs. George Applegate and Mrs. Peg Motherstone of Sydney, Australia. The three ladies have been friends for many years. Mrs. Kennebeck will drive into Los Angeles this weekend to see Mrs. Motherstone off and wish her bon voyage when she departs Saturday for her eighth trip around the world. Mrs. Applegate will remain in Brentwood for some time before leaving for her home.

Enjoying a few days vacation in Los Angeles this week, Mrs. Mildred Davison and Ethel Bertino are home again and back at work in Edith Eddy Ward's office.

## FBI SEEKING AID NABbing FUGITIVE

Corbett, one of the FBI's "Ten Most Wanted Fugitives," is wanted for escape from the California Institution for Men, Chino, Calif., where he was serving a 5 years' life sentence for murdering an Air Force sergeant.

A Federal warrant was issued at Los Angeles, Calif., on March 21, 1960, charging him with unlawful interstate flight to avoid confinement for murder.

JOSEPH CORBETT, JR.

A WHITE AMERICAN born on Oct. 25, 1926, at Seattle, Wash., Corbett is 6 feet 1 inch to 6 feet 2 inches tall and weighs 160 to 170 pounds. He has light brown hair, hazel eyes, a fair complexion, a medium build, and has worked as a clerk-typist, laborer, warehouseman, laboratory technician, and alkyd-resin cooker for a paint manufacturer.

His two upper front teeth slant inward and he wears glasses, reportedly being extremely near-sighted and capable of seeing only close objects without them. He has a mole under his chin and a C-shaped scar on his right thumb.

CORBETT, ONCE a premedical student, is interested in scientific matters, avidly reads technical and travel books, and is intensely

interested in firearms and target practice. He reportedly has a superior general intelligence and generally lives quietly and neatly but becomes erratic when drinking alcoholic beverages.

Convicted of second-degree murder, he is considered armed and dangerous.

Anyone having information concerning him should immediately notify the nearest office of the FBI, the telephone number of which can be found on the first page of local telephone directories.

Estimates say there is at least one big game animal in Wyoming for every resident of the state.

## \$3,280 Lawsuit Filed Against Bobby Garcia

INDIO — A suit against Robert L. "Bobby" Garcia, former Cabazon "Hooper" club operator who recently closed a similar operation near Palm Springs, was filed in Superior Court here this week asking \$3,280.79 allegedly owed to J. Riddell Sterrett, and Opal Mae Sterrett.

The Sterretts' suit asks a like amount from John R. Chapman, who was listed as a partner of Garcia.

The complaint alleges Garcia and Chapman borrowed the money on Feb. 11, 1960. The sum is the "balance due an open book account," the filing stated. Josephine Baker, Indio attorney, represents the Sterretts.

Leaving Monday, Mr. and Mrs. Sam Arcott will spend three months in Laguna Beach. Before returning to the desert around Oct. 1, they will go on to Carmel and around the Peninsula for a month. Enjoying their last Saturday in the desert before leaving, they will join the Herbert Shaws, Archie DeLands and the Ludlow Flowers for dinner at Shadow Mountain Club.

Word comes from Gary Olesen (son of the Kay Olesens), that he will be attending the Chrysler training school for about two more weeks in Detroit. This school is for the sons of the dealers. Before returning home, he will stop en route in Chicago to visit school friends.

Weekend guests at the home of Mr. and Mrs. Ira Johnson were the Olney Pifers of San Bernardino. Mrs. Pifer and Mrs. Johnson are cousins.

## Dear Abby...

...by Abigail VanBuren

DEAR ABBY: Eleven years ago I married a man whose parents were European-born. His family thinks he has a halo over his head and I have horns growing out of mine. They all speak very good English, but when I'm around they start talking an old country language which they know I can't understand. They claim they don't speak English because they don't want the children to understand what they are saying. Yet they use the most vulgar words in the English language when the children are present. I don't get it. Don't tell me to complain to my husband. His parents can do no wrong. How does a good wife who loves her husband cope with a problem like this?

Speak English, or learn another language.

NEEDING ADVICE  
DEAR ABBY: Ask your husband to teach you a few words of that foreign language. Then learn a few phrases. Next time his family congregates, toss out a phrase or two in their native tongue. Look wise and chime in occasionally. They'll assume you know more than you do, and soon they'll figure they might as well

DEAR ABBY: What is a wife supposed to do when her husband brings home unexpected company for dinner? He has done this to me several times and I get so mad at him I could break every dish in the place. There are just the two of us and sometimes I have planned a very simple pick-up supper or just left-overs. "Don't fuss," he tells me "right in front of them." "They'll eat

anything you have." Can you tell me how to handle this awkward situation?

NOT PREPARED  
DEAR NOT PREPARED: In this enlightened age of the freezer and canned goodies there is no reason for a woman to be caught with her cupboard bare. Keep something on hand for just such occasions. And if you are too rattled to start cooking or thawing — just start dressing and let hubby take everyone out to dine. (That'll cure him.)

## Council to Halt Membership on Planning Body

The City Council has severed its last remaining physical tie to the city planning commission when by a 6-0 vote it was decided to discontinue the policy of maintaining a councilman on the planning body.

Councilman Ted McKinney, who has been the council's representative on the commission, did not vote on the measure Wednesday which was placed in motion by Councilwoman Mury Carlin and seconded by Councilman George Beebe, Jr.

Mrs. Carlin did ask, however, that members of the council "take turns" in acting in an ex-officio capacity at commission meetings, a setup which according to sources close to city hall will soon end because of the complexity of the commission hearings which sometimes run for four to eight sessions.

# POOL OWNERS ATTENTION!

## SWIM WITH CHLOROMATIC

CHLOROMATIC is scientifically designed to provide safe, efficient, economical production of sodium hypochlorite in proper quantities for maximum sanitation and comfort in your swimming pool. Automation is achieved through timing mechanisms and the CHLOROMETER which indicates chlorine content in the pool. Your CHLOROMATIC, once adjusted, will automatically maintain the proper chlorine residual 24 hours a day thus guaranteeing top condition of your swimming pool water at all times.

INEXPENSIVE—CHLOROMATIC requires absolutely no expensive chemicals.

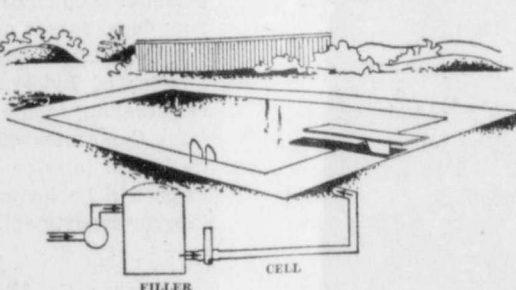

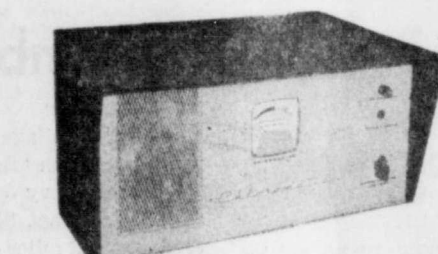

HEALTHFUL AND SAFE CHLOROMATIC is absolutely safe in operation. It provides a sanitizing "bleach" which conditions the water to help prevent irritation of the sinuses and eyes often caused by chemical action. The gentle saline solution actually contributes to the health and comfort of the swimmer by approximation the same level contained in the blood stream and body tissue.

REDUCES ACID REQUIREMENTS—CHLOROMATIC reduces acid requirements up to 80% because it manufactures a neutral "bleach." Therefore, acid is only required to lower pH of the make-up water added to your swimming pool.

ENTIRELY AUTOMATIC—CHLOROMATIC operates more efficiently than human hands. It automatically calibrates the "bleach" content for your pool, prepares and dispenses just the right amount of "bleach" for maximum comfort and health. CHLOROMATIC makes it unnecessary to take consistent tests of the swimming pool water.

EASILY INSTALLED—CHLOROMATIC operates off the return line of the filter tank. It starts with the flick of a switch and works automatically from then on...

THE MIRACLE of electro-chemistry now brings automation to the care of your swimming pool, eliminates the work and expense of mixing and dumping dry or liquid chemicals into your pool water.

CHLOROMATIC operates thru the miracle of electro-chemistry. The platinum iridium cell is the heart of CHLOROMATIC and in it the germ killing and sterilizing "bleach" is manufactured. The cell is the result of years of engineering and research; designed to assure years of trouble-free operation, the cell is housed in a compressed plastic base which is chemically inert and completely safe.

SHOWN ENJOYING THEIR pool after treated electronically with a new device called Chloromatic is Dr. Mark Steele, M.D., of San Marino, who has a winter home at 635 Bedford Street, Palm Springs, and Audrey Rodgers of La Canada, John Paulas, Chloromatic distributor, in clothing, Mrs. Steele, Cokie (the dog) and Michael Steele, the doctor's son. ## The Best Policy?

WASHINGTON, D. C. — In a day when it's no longer possible to dismiss even the most incredible and fantastic spy stories as poppycock, there are serious-minded statesmen in Washington — as well as newsmen — who find themselves in an embarrassing spot.

What is a sober-sided statesman, or skeptical newsmen, to do when he is brought perfectly astounding yarns concerning the still - percolating U-2 incident? The face value of the yarns of often shows little except the rationalization of American officials, or of volunteer sleuths, who are trying to find an explanation which pleases them. All of us like solutions to riddles which prove us right — but these are the most dangerous kinds to jump at.

THE SOURCES OF information may be shadowy. The double-check may lack verification. And yet the times are such that top men in Congressional and Federal posts, who would not be caught dead with a loose rumor, find themselves compelled to follow up the most tenuous leads. The matter is more complicated than is generally understood. Ten years ago, it was the accused who was often thought to be wrongly injured by the publication of unverifiable rumors. But today the "accuser" (actually, he is usually only a seeker or prober) can be hurt far worse than the accused. For instance, if a reputable Senator has the bad luck to get stuck with a half-baked investigation or an ill-proved charge, his credibility is lessened — his character becomes a prey for the saber-toothed critics.

I TAKE THIS whole situation to add up to a serious dilemma for the truth-seekers. Understatement is the best policy today. As a policy for keeping out of trouble, it is better than honesty. So, while I don't know how to evaluate certain data which I have picked up along my Capitol Hill route, I ask the reader — what would HE do with such theses as follow?

1. That there is double defection somewhere down the line on the U-2 spy plane. If the pilot was not ordered to destroy himself and his plane, he should have been so ordered. Within the ambit of a spy's employment, there lies the almost axiomatic assumption that he is expected to take his own life rather than "sing" to his captors. Likewise, a soldier is expected to destroy secret equipment which is about to fall into enemy hands. Every humble bombardier in the European Theater of Operations of World War II carried a .45 calibre revolver and explicit instruction to blow up the Norden bombsight in event of possible crash or capture.

2. THAT THE defection was not American, but Russian. A reason now given for the nearly intact condition of the pilot and U-2 aircraft is that the plane was landing to pick up a high Soviet official who was coming over to us. One such official, Anastas Mikoyan, disappeared from sight in Moscow during the

U-2 excitement. Inevitable — but unprovable — rumors have connected his name with a wild plot of a piggy-back rescue by an American glider-type aircraft, such as the U-2. If we could attach real Russian names to real stories of attempted escape, we might have a clue to Khrushchev's status as the dominant figure in Russia.

3. THAT THERE is solid basis for the Administration's seeming complacency over our military posture. Senator Symington and others raised a big outcry some while back when there was an apparent change in the "intelligence estimates" upon which the Administration bases its Defense budget. The President was accused of down-rating and underestimating Soviet might in order to reduce his military spending.

But if the U-2 flights, or other means of gathering intelligence, revealed Soviet weakness or unpreparedness, that would explain some of the President's statements. We could then assume that Ike really did know more than anybody about our need for more missiles and planes.

NONE OF THESE theses is offered as sound or credible. They are held up for inspection for the purpose of showing what material is available on the Washington marts.

It's still a case of "buyer beware!" But it's also a case of "skeptic beware!" Let nobody dare say — "Such things don't happen."

## 'Why Don't You Say Something!!!'

STAN DELAPLANE:

## This Side of The Sun

By Phat

'Tis said names make news And that's why Palm Springs is taking the rap For all sorts of things.

That's the penalty of fame. Palm Springs is a world-famed resort and headline writers know that if they can squeeze Palm Springs into a headline people are going to jump to read the story.

IF THEY DO read it, that's all right. They'll probably find that the incident described occurred 15, 20 or more miles from Palm Springs.

It's the hurried people who just read the headlines that do the damage. They read in bold type the headline that blares forth "Palm Springs Murder" or "Two Die of Heat in Palm Springs."

THEY DO NOT bother to read the story. The headline is enough and makes a fine conversation piece.

When there's a lull in the small talk or the host is a little late with the next round, some person pipes up: "Did you read where a man died of the heat in Palm Springs?"

If they had read the article they would have known that it happened many miles from Palm Springs, out in the open desert. But, no. The headline was enough for them.

And they all turn and look at me with commiseration.

AND THEN THE FIGHT is on. Trying hard to avoid all words of dubious refinement, I patiently explain that the incident in question happened 20 miles from Palm Springs and, as the sound and fury increases, that more people suffer heat prostration in one day back here than transplanted Southern Californians came from, then in Palm Springs in twenty years. They murmur pityingly something about chauvinism.

I looked that up. It's all right. Not a bad word. Just means over - enthusiasm for your own backyard. Well, somebody's got to do it even at the expense of being disqualified as the life of the party. Anyway, they know now.

THAT STATEMENT, "Names make news" reminds me of my cub reporting days, too long ago. "Remember," said the Simon Legree at the city desk, "Names make news."

Being ignorant and flippant I asked: "Then why not print the city directory every day?" The roof fell in.

"Listen, bub," he said. "Come over and sit on my knee and I'll explain in simple words what I mean."

IF JOE DOAKES down the street, who sweeps out the speakeasy, runs into a light pole and wrecks his car, he'd get about six lines back in the patent medicine section.

"If the mayor did it, he'd get an eight-column front page banner."

"That's what I mean when I say names make news."

And that's what I mean when I say anything within 50 miles of here gets a Palm Springs label.

Because names make news.

Sometime next September, HMS Bounty will sail again into Tahiti's green harbors with Captain Bligh flogging the million-dollar back of Marlon Brando.

MGM's remake of "Mutiny on the Bounty" will be a \$10,000,000 production — another "Ben-Hur" spectacle. It will be filmed entirely in the islands of French Polynesia. Even the interior sets will be built in Hollywood, knocked down and reassembled here.

THE OTHER NIGHT we had a showdown with Ruby Rosenberg, who is here estimating cost for the studio. And figuring how to get Tahitian extras to work two days running. The rich land produces bountifully. Tahitians work only long enough to get money for the big Saturday night beer bust.

"HOW MUCH will this picture cost, Mr. Rosenberg?" we asked. "Is this for publication?" he said. "Yes, sir," we said. "Then I won't tell you," he said.

This pretty much concluded the interview. Curiously, Hollywood will never tell you the cost of a picture until it is made. Then they send a thousand press agents around, BEGGING you to print such information.

"IT WILL PROBABLY be a cheap movie," we said. "I hear MGM is on the shorts these days."

"Are you kidding?" said Mr. Rosenberg. You could see we stung him. "This spectacle will make the 'Ben-Hur' budget look like a minor expense account. Everything will be bigger and finer and more expensive than the last 'Mutiny,' which was done with Charles Laughton."

"Why, even the Bounty has been scaled UPWARD — from the original 90 feet to 130."

BY SUCH SLY and needling remarks, we were able to find out a number of things.

The Bounty is now being built in New London, Conn. She will be sailed down to Tahiti, accompanied by two camera ships. She is air-conditioned throughout and carries enough electrical

equipment to light a city of 100,000 people.

EXCEPT FOR THE moody Mr. Brando — he will play Christian, the mutinous mate — the cast will be entirely English. Nobody has been able to estimate the impact Hollywood will make on this South Pacific Paradise. The estimated shooting time will be three months and the company will send in a crew of about 200. (There are only 125 hotel beds in all Tahiti.)

THE STORY LINE has been changed somewhat. Bligh is set adrift early in the picture. The major part of the story is about Fletcher Christian. And a good deal of the picture covers the episode on Pitcairn island, where the mutineers hid away from British naval vengeance.

Though there are three movie houses in Papeete, we could not find any rip-roaring fans. Tahitian girls seem to be quite satisfied with home talent.

"DO YOU LIKE Marlon Brando?" I asked our hotel maid.

"Never mind. What movie star do you like?"

The maid said she liked Eddie Constantine. She didn't flip on him. But she liked him O.K. She had seen "Bridge on the River Kwai," but was not bowled over by William Holden.

I HAD MY PICTURE taken with Mr. Holden once. It usually gives me a lot of numbers with hotel maids. You know — "Then I said to William Holden . . . Then he said to me . . ." — that sort of thing. The picture didn't get me an extra bar of soap in Tahiti.

We asked Mr. Rosenberg if MGM had any plans for a big canoe race in "Mutiny on the Bounty." But he dummed up on us.

I SUSPECT THERE will be, though. That chariot race in "Ben-Hur" was pretty big. And when Hollywood gets hold of a good thing, they are apt to go on making it over again until something else gets a bigger gross.

MIKE CONNOLLY:

## Squaks on Re-Runs

HOLLYWOOD — A lot of viewers are beginning to squawk about the re-runs this summer. It's true that by July 1, two-thirds of the prime time on the three major webs will be filled with re-runs. This is greater than last year but a great share of the blame must be accepted by the actors' strike and the writers' strike still on at this writing. But won't you viewers have a great opportunity to catch up on shows you missed??

Tony Bennett is being wooed by Warner Bros to sing the title song for the movie, Parrish. This has always proved a great boon to a singer's career.

ED "KOOKIE" Byrnes has made such an imprint with his TV characterization that Four Star is looking around for a Kookie - type guy for a running part in Robert Taylor's Detectives.

Ed Sullivan never lets up battling his opposition on Sunday nights. For a July date, Ed has Steve Forrest and hopes to get Steve's Five Branded Women from that movie made in Italy with the gals coming from three different countries!

Harold Rome is tailoring a Broadway musical for the likes of Art Carney's measurements. And so far, Art hasn't turned down the first fitting!

NOW THAT STARTIME is no longer, what is Hubbell Robinson going to do with his Aimee property based on the life of Aimee Semple McPherson? And that ain't all. There are two movies, Elmer Gantry and Angel Baby crowding him, too.

According to Jack Paar's Genevieve, some hustler slipped up to General De Gaulle and tried to sell him some American postcards when he was here!

The TV pitchmen can have a field day but it only happens under conditions like these: The producers of The Apartment with Jack Lemmon and Shirley MacLaine are so sure the announcers will like the movie that there will be no ad copy and they can ad lib their hurrahs.

NOW THAT ON the Go is off, what is producer John Guedel going to do with \$250,000 worth of mobile tape trucks. Any offers?

Bob and Delores Hope made Lisa Kirk's opening here at Ciro's so late, they only caught

the last quarter - hour of her act . . . Joked Hope: "Couldn't you at least re-run the tape?"

FROM AS FAR away as Israel comes the news, of the troubles on location for Exodus. It's a difficult movie to make which you who have read the book can readily know. And as happens, little disagreements ripen into bigger things until the arguments become personal — then's time to call for a referee.

Paul Newman and producer-director Otto Preminger are the two in question. Seems that Mr. P. doesn't care for Paul's style of acting. Peter Lawford, a lately sworn-in U. S. citizen, is playing it much safer by staying clear of the tension between the British and Preminger. And well he should. Peter plays the "heavy" British officer in the movie!

EVEN WHEN WE wrote it we found it difficult to believe Greer Garson was living on a ranch in Texas. Now we learn she doesn't — not all the time. She keeps a very elegant apartment in a nearby town.

Walter Slezak says his secretary is improving. Yesterday she only made one mistake in her typing, she forgot to put a ribbon in the machine!

Airline executives and the government groups that have to do with such things, are in constant fear that some gimmick-happy producer will make a movie about a passenger who carries a bomb onto his plane! It would only trigger off a lot of maniacs susceptible to suggestion.

AFTER PRODUCER Ray Stark finishes making a star out of Nancy Kwan in Suzie Wong, he's going to hop right to making The Fanny Brice Story. Scripter Isobel Lennart has joined him in London to lay the ground work.

Judy Garland gave a beautiful garden party last Saturday afternoon for a most worthy cause. She threw open the doors of her home to raise \$250,000 for the Dubinoff School which rehabilitates brain - injured children. Judy gave the drive a wonderful start.

Edward Everett Horton has a gem of an idea for a Las Vegas show - stopper. The girls on stage are all dressed up, see and the audience is nude!

At the Village Theater — Arthur Lake and Penny Singleton in "Beware of Blondie."

## ISOMATA CAMPUS FOR TYKES READIED

IDYLLWILD — Situated on a beautiful pine-covered hill on the main campus of the Idyllwild Arts Foundation, the ISOMATA Children's Campus provides facilities for a variety of creative activities for children in five age level groups during the summer program.

The facilities include art, dance and music studios, amphitheatre and two special buildings with enclosed play areas for younger children.

DIRECTED BY Burdette Fitzgerald, Division of Theater Arts, UCLA, there is also a music specialist, art specialist and dance specialist to work with teachers and counselors.

Each age group is in charge of an experienced elementary school classroom teacher who has been chosen for her ability in the creative teaching of the arts in the classroom. Guest artists from the adult program of the Foundation also perform for and work with the children.

AT THE CLOSE of their day the children have a recreational period at the pool under the supervision of an experienced physical education instructor. The children's campfire program every Thursday evening is a time for skits, stunts, games, singing and a warm sharing of group activities for ISOMATA children and their parents.

The age groups include children from three to 15 and each has its own area in which to work and play.

## AFTER SUN-SET

### Lee Martin Awarded Devilish-Good Role

By GEORGE LAINE

If Lee Martin plays his cards right, the chances are fair to middlin' that Martin Beck may cast him as a human in some upcoming PlayerStage production.

But of recent date, Martin hasn't played anything even reasonably earthy.

YOU'LL PROBABLY recall him as Kryton in "Visitor to a Small Planet," the weirdie about a visitor from far-out space. That was duck soup compared to Martin's next chore.

In "Damn Yankees," the bit of nonsense about how Washington beat the Yankees out of a pennant via some Machiavellian trickery, Martin again walks among men without exactly qualifying as one himself.

In short, he plays one hell of a part of the devil.

MARTIN DIDN'T just drop in on theater here. He'd been doing some out of this world (sic) acting in other climes before removing himself to the Desert area.

His background includes work in such environments as St. Augustine, Fla., Chatham, Mass., Hollywood, Pasadena and San Francisco.

In Pasadena, he worked with Villager Harpo Marx in one play and had a lead role in "The Yellow Jacket" in San Francisco.

His background also includes such related efforts as writing, producing and directing U. S. Army Air Force musicals and reviews, production of a series of USO shows and numerous off-

Broadway drama and dance works.

IF THE MARTIN rendition of the low-level saint comes off with as much polish and vigor as his Kryton did, there'll be a lot of nightnares around and about the Village for some weeks after "Damn Yankees" opens in the Riviera's Convention Hall on July 1.

A little bit of satanism goes a long way with most people, but Lee Martin is an extremist. Red cape and all, he'll be having a devil-may-care time of it when the musical gets underway.

Come to think of it, the devil may not care. But Lee Martin does.

Players were paraded through a specially rigged chamber preheated to more than 100 degrees. On emerging from the steam-room, the actors had precisely the "wilted appearance" the director was trying to achieve.

### 'Suzie Wong' at Sea

HOLLYWOOD (UP) — A 41-foot schooner named "Suzie Wong" has left Hong Kong for a round-the-world voyage to New York, thus augmenting the international promotional campaign for the motion picture, "The World of Suzie Wong."

The schooner, manned by four American ex-servicemen, is to journey 20,000 miles in the next eight months.

LEE MARTIN, ONE OF THE PlayerStage Company's mainstays, gets some advice from Martin Beck on reincarnating the devil for his role in "Damn Yankees," the newest effort by the troupe which is scheduled to begin on July 1 in the Riviera Hotel's Convention Hall. A huge cast will be featured. (Desert Sun Photo).

## Project In Special Showing

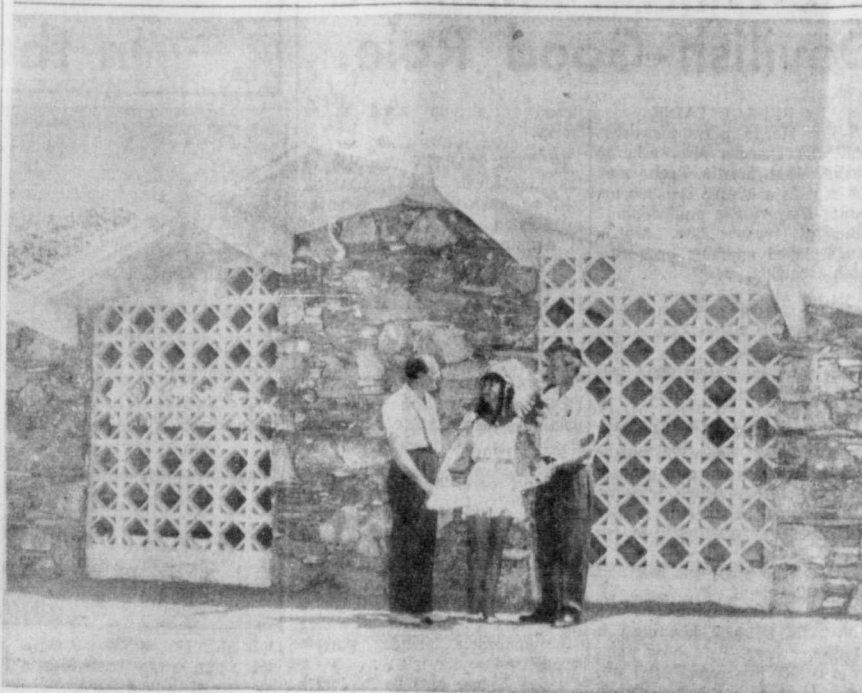

In appreciation of the overwhelming response given the advance viewing of Palm Springs Village by year-round residents of this resort city, officials of Southern California Land Development Corp. of Pasadena, owners and developers, have set aside today and tomorrow as special "Palm Springs Days."

They have announced a private showing of the properties tomorrow and Sunday exclusively for residents of the Desert area interested in investigating the possibility of year-around living in the new desert-mountain community, according to Samuel P. Sparks, corporation president.

In commenting on the scores of visitors and hundreds of messages of congratulations and appreciation that have flooded his office for the past few weeks, Sparks said:

"MY STAFF AND I are deeply grateful for the interest already shown in Palm Springs Alpine Village. Messages of encouragement and congratulations have poured in from every area of the desert, and from businessmen, civic leaders, community planners, educators, real estate brokers and laymen.

"Alpine Village has been a long time in the planning, but it was worth every minute of it.

MICHAEL BUCCINO, left, interior decorator of Palm Desert, shows plans for decorating new model homes now under construction in El Dorado Palms to pretty Princess El Dorado and Kirk Kirkwood, vice president in charge of sales. Thirty five new homes in the luxury group will start construction about July 1, in the smart Country Club development. A highly successful year at El Dorado Palms has seen sales running to over one and a half million dollars, it was announced. Models are open daily and Sunday for inspection.

## Home Development In the Sun

### GARDENING IN THE DESERT

## Hot Weather Means End For Most Of Our Flowers

Naturally concluding that Mr. Amateur Gardener has gloated over a fine showing of roses the early part of 1960 we must now remind him that the sun is gradually taking over and, although we will have some roses that might fill the bill until September comes around, he will have to be satisfied with a lesser quantity and quality.

He could spend some of his time in lightly pruning off dead stalks while realizing that the more dense the leaves the more protection is provided for the stalks. When July comes in it would be wise to water early morning and late evening until the fifteenth of September.

DURING THIS period we are inclined to continue the monthly feeding of rose food mainly because of the leaching being heavier than during the period of lesser irrigation. To help the retention of moisture cover the rose beds with either peatmoss or steer manure to lessen evaporation.

Very shortly now the hollyhocks will be giving it up for this season. We have found them by no means difficult to raise. When given sufficient food and water they present satisfaction for the gardener's labors with gorgeous varieties in colors from white to grades of pink and deep red.

WE HAVE THEM partly protected by a six foot redwood fence. If utilized, the countless number of seeds they leave behind after their decease could be used to decorate all the fences.

### Supervisors Get School Requests

Abandonment of San Luis Rey Plaza and a portion of San Luis Rey drive as well as two pedestrian walkways on the 12-acre property on which a school is already under construction in the Palm Springs Unified School District was approved by the Board of Supervisors this week, following a hearing at which no opposition was presented.

### Disqualified Success

SALEM, Conn. (UPI) — A man who can't read nearly qualified as a voter here anyway. He memorized a paragraph frequently used to test reading ability and recited it perfectly. A registration official said, "That's fine—now read it right side up."

that enclose our garden. When the last hollyhock give up the ghost for this season trim the entire length of each plant leaving only a few inches for next year's growth.

As soon as the seed pods have dried out you will be able to provide all your friends with seeds for next season. When planting you should remember that hollyhocks when full grown are tall and slender on the stalk and should be provided with protection from the prevailing wind.

MATURE OLEANDERS are less thirsty than most decorative plants — they should be heavily trimmed at this time — that filling the basin once a week would supply sufficient nutrition. This, together with a heavy spraying of aphid - destroying insecticide, should then carry the oleanders through the summer and leave your mind at ease when you are away on vacation.

We have read of pyracantha being plagued by aphids but, up

to the present, have seen none of these pests on our six foot pyracantha hedge nor have we heard of anyone with a pyracantha hedge being worried with those pests.

HOWEVER, THERE are aphids and many other pests that feed on plant life. Red spider, mites, mealy - bugs, thrip, four - lined leaf bug, rose - leaf hopper, white fly, green hopper, and many more are always busy looking for a meal. To eliminate as many of these as possible we have had the best results from a mixture of Malathion, Lindane and D. D. T., using a spray attached to a hose to ensure an even spreading of the insecticides.

For the elimination of underground pests we have had good results from the use of wetted D.D.D. — obtainable dry in bags at local nurseries — an excellent destroyer of sod worms, etc.

Incidentally, spraying your outside walls with the Malathion mixture will keep flies away from your property. This, and the city ordinance against the stowage of stagnant manure, should very much lessen the prevalence of flies in our city. —T.G.M.

### County Okehs Blythe Lease

Lease to the federal government of three-fourths of an acre of land in Blythe Airport at \$75 per year was approved by the Board of Supervisors this week. The government plans to construct a border patrol station on the property on the north side of Highway 60 east of Blythe.

"This will bring activity to the airport," declared Airports Director Joe Marriott. "This group operates airplanes." The lease gives the lessees access to the airport and the right to use it.

### 2 Permits Spur Area Building

Two building permits were issued last week in the unincorporated area adjacent to Palm Springs, the county building department of office at Palm Desert reported.

Permits went to Rafael Corp., San Rafael Drive, warehouse, \$56,561, and Henry Fershan, 32 - 299 Whispering Trail, storage shed, \$480.

## Shower Is Farewell for Janet Fahrner

Sister members of the Freshman Double Trio at Palm Springs High School were hostesses at a surprise shower that was a farewell for Janet Fahrner, who with her parents Mr. and Mrs. William Fahrner of Cannon Drive, will move to Whittier. A civics teacher at Palm Springs High School this year, Fahrner has accepted a teaching position at Whittier High School.

The Double Trio girls, who have been awarded musical scholarships at Arrow Bear Lake this summer, are Lynn Hamerschlag, Carol Paul, Diane Hechter, Kathy Sheppard, Judy Coletti and Janet Fahrner. The evening's entertainment included some harmonizing by the Double Trio, accompanied by music played by a few of the high school boys.

Refreshments were served after Janet opened her shower gifts, which included a fitted traveling case.

The party wound up at the Alex Hammonds' home on Park Drive, where the younger set went swimming.

Mr. and Mrs. Jack Sanders joined the parents in chaperoning the party.

Plans for an August wedding of two Palm Springs Unified School District teachers were revealed this week with the announcement by Mr. and Mrs. George S. Conley of Compton, of the engagement of their daughter Marjorie to Donald Aikens, son of Mr. and Mrs. Clarence B. Aikens of Glendale.

The Charles Ryans and twin sons have returned to their home on Cardillo Avenue after a 5,000-mile motor trip with her parents, Mr. and Mrs. Don W. Holderman of Hollywood. They also visited in Memphis, Little Rock, Dallas, San Antonio and El Paso before returning to Palm Springs.

## Baseball Diamond is Scene for Largest Fashion Show

The night of June 11 in the Los Angeles Coliseum will find upwards of 50,000 baseball fans looking at some mighty mean curves. But the curves they'll be eyeing won't be tossed by a pitcher. They'll be flipped out by nine lovely high fashion models under the direction of fashion commentator Gloria Carpenter.

Miss Carpenter will be conducting perhaps the largest fashion show in history. For the ladies night crowd between the Cincinnati Redlegs and the World Champion Los Angeles Dodgers, local baseball officials anticipate more than 50,000.

Gloria Carpenter, who regularly does the famed Las Vegas Hacienda Hotel flying fashion show on Thursday nights, will narrate the Dodge show in the same breezy style that has made her airborne trip into the world of glamour so popular.

Nine models will assume regular baseball positions on the diamond. Miss Carpenter is spreading the gals out so that more people will get a good look at the California fashions.

The Gloria Carpenter fashion show will begin about 7:30 p.m. and last less than 15 minutes. Yet in the 15 minutes, Gloria plans to open new horizons to the world of California fashion. In fleeting moments Gloria Carpenter will make more people aware of the fashion world than ever before in history.

Manufacturers taking part in the arc-lighted show, in addition to having their wares plugged over the public address system, will have a mention in the Los Angeles Dodgers' program nearly the entire month of June.

Gloria Carpenter is truly bringing fashion to the grass roots level.

Bid Von Voyage To Mrs. McKinnon

Mrs. Fay McKinnon of Rancho Mirage was the honored guest at a dinner party given by Mr. and Mrs. Tom Yancy of Los Angeles at Hank Gogerty's ranch in the Palm Desert area Tuesday evening.

Mrs. McKinnon is leaving Friday for Alaska where she will visit her brother and sister-in-law.

Enroute home she stopped in El Paso to visit a cousin, Mrs. C. L. Ezell.

To keep hubby from getting grease on his sleeves when tinkering with a car motor, make sleeve protectors. Cut off the sleeves of a worn jacket and put elastic in each end so the protectors will hold in place on his arms.

## Finals of Mrs. America Set

Robert Trout and Julia Meade will be the reporters for "The Mrs. America National Finals," the final hour of competition for the title of Mrs. America, to be telecast as a CBS News special event Friday, June 10 (8:15-9:15 p.m.) on the CBS Television Network.

Trout will bring viewers up to the moment on the results of the week-long competition at Fort Lauderdale, Fla., and will introduce the top 10 contestants as they learn for the first time of their selection as finalists.

The veteran CBS News correspondent, with the assistance of Miss Meade, who will provide the feminine viewpoint, also will report the competition of the fi-

nalists in personality, fashion designing and cake decorating. The contest will give the panel of judges — all expert home economists — a final review of each contestant's merits, leading up to the selection of the winner.

One of the highlights of the program will be each finalist's description and discussion of a hat she has fashioned from 10 articles provided her. The hats will be judged on the basis of ingenuity and originality as well as their value from the standpoint of contemporary design.

"The Mrs. America National Finals" broadcast is produced by Paul Levitan, Director of Special Events, CBS News, and directed by Vern Diamond.

## Nelson Plays Hide-and-Seek With Explosive

While working with a scientific expedition mapping the ocean bottom off the Philippine Islands, Mike Nelson (Lloyd Bridges) warns that explosive charges being used by the scientists are too powerful.

His advice is ignored — and the first explosion starts a dangerous subsurface upheaval. Mike and Tug Benton (Logan Field) begin a dramatic race with time to recover the remaining charges before they explode and start a tidal wave in the "Sea Hunt" adventure telecast on KRCA (Channel 4), Friday night, June 10 at 10:30 p.m.

## Holiday Goes North and South

Bill Burrud's "Holiday" takes viewers from the north and a land of resorts to the south to a river named famous in song in "Lake Tahoe to Swannee River," Friday, June 10, 7 p.m., KOOP, Channel 13.

At Lake Tahoe, the "Holiday" crew, admires the sheet of rich blue water rimmed by snow-capped peaks and visits the Vikingsholm, modeled after the castles of Scandinavia.

## Historic Palace To Be Revisited

Historic Blenheim Palace and stage star Anne Bancroft will be visited by Charles Collingwood and "Person to Person" Friday, June 10 (10:30-11 p.m.), on the CBS Television Network. (This is a rebroadcast.)

Collingwood will meet with the 10th Duke and Duchess of Marlborough, present occupants of the beautiful palace in Woodstock, Oxfordshire, England, which was built in 1705 by Queen Anne for John Churchill, first Duke of Marlborough. Sir Winston Churchill was born in the palace. Miss Bancroft will be seen at her unique apartment in New York City's Greenwich Village.

The 10th Duke of Marlborough, named John Spencer-Churchill, a cousin of Sir Winston, will tell how he manages to maintain the 250-year-old palace by means of tours which are conducted six days a week.

Miss Bancroft has been receiving high praise for her portrayal of the half-blind Anne Sullivan in the Broadway hit "The Miracle Worker." She was born Anna Maria Italiano in New York. Ever since she can remember she wanted to be an actress. Although she appeared in some 18 motion pictures, her first big break came two seasons ago when she played opposite Henry Fonda in "Two for the Seesaw" on Broadway.

## Rotary Defeats 29 Palms Little Leaguers, 6-3

Special to The Desert Sun  
TWENTYNINE PALMS — Palm Springs Rotary Club first baseman Joe Baldares led a third inning uprising with a home run to break a 3-3 tie and give the Palm Springs Little League entry a 6-3 victory over the Twentynine Palms Marine LL team.

Baladares' blow came with a mate on base.  
**BOTH TEAMS** had notched three runs in their initial turns at bat. Baladares contributed to that spree by knocking in the first Rotary run and then scoring himself on a hit by Jerry Bigelow. Bigelow also scored when Vince Judulang hit safely.

In the last of the first, the Marines evened things swiftly, sending three runs across before Rotary hurler Steve Coster settled down.

**AFTER THE SHAKY** first frame, however, Coster yielded only four scattered hits and allowed only two Marines as far as second base.

Coster struck out 11 Marines in the course of the twilight game and was assisted by consistently good fielding from his mates.

A rematch of the game will be scheduled in Palm Springs sometime this month.

## Arcaro Agrees, Gets 'Venetian Way'

NEW YORK (UPI) — Eddie Arcaro will be aboard Venetian Way, a late-running colt owned by Joseph O'Connell of Boston.

Bally Ache, winner of the Preakness, and Tompion, the beaten favorite in the Derby, are expected to attract most of the support in the Belmont. Bob Ussery once again will ride Bally Ache and Willie Shoemaker will pilot Tompion.

Bill Hartack was dropped as Venetian Way's rider after finishing fifth aboard the colt in the Preakness Stakes. However, Hartack will not miss this 92nd running of the Belmont. The controversial

# Robinson Favored Tonight

## Court Attaches Purse

BOSTON (UPI) — Champion Paul Pender and Sugar Ray Robinson will meet in their return middleweight title fight at the Boston Garden tonight despite two restraining orders tying up the entire gate receipts.

Sugar Ray, 39 or 40, is favored at 8-5 to recapture the title for the fifth time before an expected 11,000, providing a probable \$100,000 gate.

**THE \$150,000** fee from television and radio of the scheduled 15-rounder (NBC) at 10 p.m. e.d.t. will not be affected by the two orders issued Thursday by Judge Charles D. Bolster in Suffolk County Superior Court.

Promoter Sam Silverman said, "We'll go through with the fight and worry about legal matters later."

**JOHNNY BUCKLEY**, manager of Pender, declared: "We want to get this return match with Robinson out of the way so Pender can fight Gene Fullmer for the undisputed world title, which we claim."

Irish Pender of Brookline, Mass., is recognized as champion by Massachusetts and New York. Fullmer of West Jordan, Utah, is champion in National Boxing Assn. territory. Pender won his portion of the crown from Robinson on a disputed split decision at the Boston Garden Jan. 22.

**ONE RESTRAINING** order, against the entire gate receipts, results from a suit by Nunzio Camillo of Boston, who seeks 20 per cent of the net gate profits as an alleged 20 per cent partner in Silverman's promoting organization.

The other order was issued at the behest of the Charles Center Boxing Club of Baltimore and asks only \$9,000 for Robinson's failure to go through with a scheduled tuneup fight at Baltimore May 16. Robinson, Silverman and the Massachusetts Boxing Commission are defendants in that suit.

**INCREASED SUPPORT** for 29-year-old Pender dropped the betting price, favoring Robinson, from 2-1 to 8-5. Robinson's loud yells for a square deal from the ring officials tonight apparently frightened some of his backers.

But Sugar Ray, who never lost a return bout in his long career, said today he is much "sharper" for this fight than in January and he hopes to flatten the former Brookline fireman early.

## DETROIT WALLOPS OROLES IN PAIR

By United Press International  
Frank Bolling, a quiet, mild-mannered type whom you would never figure to do such a thing, suddenly came around with a bat and broke up that honeymoon in Baltimore.

The slick-fielding Detroit second baseman not only broke the Orioles' hearts but also their backs by smashing a pair of two-run homers that enabled the Tigers to capture a two-night doubleheader Thursday night, 7-5 and 7-4, and complete a four-game sweep.

**WHEN BOLLING** was through, the once-proud Orioles found themselves 1½ games behind the league-leading Indians, who won their fifth straight by beating the Red Sox, 3-2, and only two games ahead of the third-place Yankees, who defeated the White Sox, 5-2. Bolling, who had hit only one

## ELDORADO SEEKS BURKEMO AS PRO

By FRED C. WEIGEL  
Eldorado Country Club this week is negotiating to sign Walter Burkemo, well-known golf professional from Birmingham, Mich., as the club's professional, it was announced today by Eldorado President Robert McCulloch.

McCulloch said that Burkemo would be in the Desert area on the weekend of June 18, at which time it is hoped that contracts would be signed.

**BORN IN DETROIT**, Mich., 41-year-old Burkemo is the father of four children, and is a veteran of World War II, having served as a sergeant in the U. S. Infantry.

He turned professional in 1944 after playing amateur tournaments, and in 1953 won his "name" in golf when he won the PGA Championship.

In 1953 he was a member of the United States Ryder Cup Team, and went to Wentworth, England, to help the U. S. Team cop the coveted cup.

**IN 1957 BURKEMO** hit his highest income bracket when he won \$10,773 and followed it up the next year with \$3,328 in prize money.

Burkemo will play in the "Beat the Champions" Tournament next Saturday in Akron, Ohio, and will then head for California to talk over his new contract with officials of the Eldorado Country Club.

## America's No. 1 Road Race Set For Riverside

LOS ANGELES (UPI) — The World Championship Grand Prix, "to road racing what the Kentucky Derby is to horse racing," will be run at the Riverside Raceway this year instead of at Sebring, Fla.

Sponsor Alec Ulmann said Thursday the reason for the move was because the 3.27 mile Riverside course is one of the best in the U. S., weather in the late season is better in Southern California and interest in sports cars is high in the area.

Ulmann also cited the heavy concentration of sports cars in Southern California as a reason for the switch.

The race for formula one cars earns official points toward world rankings, Ulmann said. Coming as probably the last Grand Prix of the year, the Riverside event, he said, could decide the driving titlist.

The world's top drivers are expected to compete in the event.
